

Forestry Harvest Request Form

Forestry Harvesting - Electrical Hazards

Every harvesting operation in proximity to electrical lines must be carefully planned, a site assessment undertaken, all hazards identified and an Electrical Hazard Management Plan prepared by the operator detailing how it will address these hazards.

This document forms a record of the operator's discussions with Northpower Ltd, the network operator, and may form part of the operator's Electrical Hazard Management Plan.

Please save & complete this document and email back to forestry@northpower.com, any relevant Unit Standards / Qualifications should also be attached to the email.

Applicant Details:

Date:		Time:	
Company Name:		Contact Name:	
Email:		Phone:	
Postal Address:			
Billing Address: (If different)			

Work Details:

Date of Work:		Forest Name / Location:	
Location of Work:		Northpower Pole / Asset No(s):
